MIXER TAPS & SHOWER SETS

BATHROOM FURNITURE & WASH BASINS

This brochure presents FROST's complete universe of bathroom furniture, wash basins, mixer taps, and shower sets, designed to deliver cohesive, functional, and refined interiors across bathrooms, entrances, counters, and commercial spaces.

Inspired by other FROST concepts, the collection combines classic lines with a modern interpretation, refined detailing, and premium materials, distilling the interior to its essentials and allowing craftsmanship and proportion to take centre stage.

The bathroom furniture & wash basins collection comprises the wash table and console table sets, complete with console legs and a countertop. In addition, the wash table sets include a wash basin, pop-up plug, bottle trap, and basin mixer tap. Selected components may also be purchased separately, allowing for fully bespoke solutions. The refined details are crafted from AISI 304 stainless steel in the characteristic FROST finishes and are complemented by matt black or matt white powder-coated steel. The countertops are crafted from natural stone, each piece unique in character, as no two surfaces are ever identical.

Equally central to the FROST universe is the mixer taps and shower sets collection for bathrooms and kitchens. Each product is engineered with ceramic valves and thermostats for smooth, reliable operation, ensuring a seamless experience from installation to daily use. Crafted from AISI 304 stainless steel in the characteristic FROST finishes, the taps and shower sets offer durability, timeless Danish design, and exceptional attention to detail. Optional and spare parts are also available, allowing for full flexibility and ease of maintenance. All products are reusable and come with a 10-year warranty.

To complete the collection, a curated selection of complementary bathroom products from the extensive NOVA2 Bathroom Accessories & Care Collection is included, alongside UNU shelves, available with or without backlighting. These elements enhance both functionality and visual coherence across private and commercial bathrooms.

All products share a commitment to timeless aesthetics, meticulous detailing, and high-quality materials, enabling fully coordinated interior solutions across multiple spaces.

All products are designed by Bønnelycke MDD.

BASIN MIXER TAPS & SHOWER SETS

Equally central to the FROST universe is the mixer taps and shower sets collection for bathrooms and kitchens. Each product is engineered with ceramic valves and thermostats for smooth, reliable operation, ensuring a seamless experience from installation to daily use. Crafted from AISI 304 stainless steel in the characteristic FROST finishes, the taps and shower sets offer durability, timeless Danish design, and exceptional attention to detail. Optional and spare parts are also available, allowing for full flexibility and ease of maintenance. All products are reusable and come with a 10-year warranty.
